

## Products that DO NOT contain NUTS

Dear Customer,

This is a list of M&S products that do not contain nuts as ingredients and these foods have been produced under controlled conditions to prevent cross contamination with these allergens.

This list of products has been divided into different food categories (such as bakery, meals and groceries) to make it easier to navigate through our ranges. This list does not contain categories such as basic fruit and vegetables, as these are the unprocessed raw products, or foods served at our fresh counters or and cafes due to the risk of cross contamination. Any of our M&S staff will be able to help you find products from this list in our stores.

**Products on this list will not contain ingredients containing nuts which include; Almonds, Peanuts, Brazil Nuts, Cashew nuts, Filberts (Hazelnuts), Macadamia Nuts, Pecans, Pistachio Nuts, Walnuts and all cold pressed nut oils.**

**Coconut, chestnuts, water chestnuts and pine kernels are not classified as 'nuts' under EU legislation so, if present, they will not be highlighted as an allergen, however, they will be clearly labelled in the ingredients panel on pack.**

These lists are updated on a monthly basis to capture new products and recipe changes. You can request a new list directly from [nutrition@marksandspencer.com](mailto:nutrition@marksandspencer.com) or download your own copy from [www.marksandspencer.com/health](http://www.marksandspencer.com/health)
