# New labelling of gluten at Sainsbury's

Due to changes in food labelling law, we are required to change our allergy labelling and allergy advice boxes. Starting from September 2013, all prepared foods made with ingredients containing gluten will have the gluten-containing grain highlighted in **bold** in the ingredients list. If the product contains gluten in the recipe, we will state the name of the gluten-containing grain in the ingredients list (e.g. wheat, rye, barley, oat, spelt, kamut®), but the word 'gluten' will not appear in the ingredients list.

Where we believe that there is a real risk of a product having come into contact with gluten, therefore making it unsuitable for coeliacs, we will use the following phrase in the allergy advice panel; 'Not suitable for customers with an allergy to wheat, rye, barley, oat, spelt or kamut®'. The allergy advice panel below is from a product that is not suitable for coeliacs because there is a risk of contamination with the listed gluten-containing cereals.

Allergy advice: Not suitable for customers with an allergy to wheat, rye, barley, oat, spelt or kamut due to manufacturing methods.

# **Our Allergy labelling is changing**

Due to changes in food labelling law, we are required to change our allergy labelling and allergy advice boxes. We are legally required to highlight the presence of certain allergens, where they are included in the recipe, in the ingredients list on packs. From September 2013 we will begin to highlight allergens in **bold** in the ingredients list and not in a separate allergy advice box. You will also see new allergy statements on packs. For more information about how and why we are changing our labelling, see <a href="http://www.sainsburys-live-well-for-less.co.uk/recipes-inspiration/healthier-eating/health-advice/health-labelling/multi-colour-traffic-light-labelling/food-labelling/">http://www.sainsburys-live-well-for-less.co.uk/recipes-inspiration/healthier-eating/health-advice/health-labelling/multi-colour-traffic-light-labelling/</a>

An example label is shown below:

#### Our ingredients

Yogurt (Cows' Milk), Timperley Rhubarb (18%), Whipping Cream (Cows' Milk) (12%), Sugar, Malinova Rhubarb (5%), Orange Juice, Cornflour, Lemon Juice.

Allergy advice

For allergens, see ingredients in **bold**. Also not suitable for customers with an allergy to egg or peanuts due to manufacturing methods.

The Allergens that appear in the ingredients list are: peanuts, nuts, sesame, crustaceans (previously labelled as shellfish), fish, milk, egg, celery, mustard, wheat, rye, barley, oat, spelt, kamut®, soya, sulphites, molluscs.

## **Cross-contamination**

Where we believe that there is a real risk of a product having come into contact with allergens that could put a customer with an allergy at risk, one of the following phrases is used in the allergy advice panel:

Allergy advice: For allergens, see ingredients in **bold.** Also not suitable for customers with an allergy to x, y or z due to manufacturing methods.

Allergy advice: Not suitable for customers with an allergy to x, y or z due to manufacturing methods.

An example label is shown below:

Allergy advice: For allergens, see ingredients in **bold**. Also, not suitable for customers with an allergy to x, y or z due to manufacturing methods.

Allergy advice: Not suitable for customers with an allergy to x, y or z due to manufacturing methods.

### **How to read Sainsbury's Old Style Allergy Labelling:**

During the change over period both the new and old systems of labelling will be on Sainsbury's products in store.

#### **Old Style Labelling:**

On all pre-packed foods that contain an allergen in the recipe, the allergen will be listed in the ingredients list but not in bold text. *Always check the ingredients list FIRST for any allergens.* 

Example old style label: This product is not suitable for people avoiding egg or milk.

Sainsbury's old style labels have an additional box on the back of pack highlighting the presence of the major allergens listed in the EU labelling legislation. This box usually appears below the ingredients panel and is headed **Allergy Advice**. If the allergen is present in the recipe the text in the box states "**Contains**" followed by whichever of the following allergens are present: Peanuts, Nuts, Sesame, Shellfish, Fish, Milk, Egg, Celery, Mustard, Wheat Gluten, Rye Gluten, Barley Gluten, Oat Gluten, Spelt Gluten, Kamut Gluten, Soya, Sulphites, molluscs. The background to this box is pink (except when the label is black and white).

Example old style allergy advice box: This example indicates that the product contains milk, wheat and barley in the recipe

Where the supplier and the Sainsbury's technologist agree that there is a real risk of a product having accidentally come into contact with allergens that are not in the recipe and that the risk cannot be managed and would put customers' safety at risk, the following warning phrase is used in the Allergy Advice box: Not suitable for (name of allergen e.g. milk) allergy sufferers due to the methods used in the production of this product. Where space on the label is very limited we sometimes have to use: Not suitable for (name of the allergen e.g. milk) allergy sufferers.

Example old style allergy advice box: This example indicates that the product is at risk of being contaminated with nuts or sesame.

Please note that both statements above mean exactly the same; the only difference is the amount of space available on the label for the message.

## Product guidance for people avoiding MILK (including lactose) and GLUTEN

#### **About this list**

This list contains Sainsbury's own brand products that are made without ingredients containing milk or gluten. Our suppliers and product technologists have ensured that each product **does not** include gluten-containing grains (wheat, rye, barley, spelt, kamut or oats) or ingredients derived from these gluten-containing grains in the recipe and the risk of contamination with these gluten-containing grains has been effectively managed. Products in this list are also suitable for people avoiding cows' milk and milk from other mammalian species such as sheep, goat and buffalo. Our suppliers and product technologists have ensured that each product **does not** include milk or ingredients derived from milk in the recipe and the risk of contamination with milk has been effectively managed.

Please note that the products in our freefrom range all contain less than 20 parts per million (ppm) gluten and we can guarantee this – this is our specialist gluten-free brand. We cannot guarantee that all the other products in this list, outside of the freefrom range contain less than 20ppm gluten but they do not deliberately contain gluten and risk of cross contamination with gluten has been effectively managed.

The most up-to-date allergy information is always on the product packaging and you should always check the ingredients list and allergy advice statements on pack at time of purchase.

**Important information about breakfast cereals:** The own-brand breakfast cereals listed are suitable for a gluten-free diet even though they contain barley malt extract and the allergy advice box states "contains gluten". This is because they have been tested for gluten and only contain a very small amount of gluten (from the barley malt extract) which is at a level that most coeliacs can tolerate.

Important information about oats in freefrom products: We have improved the quality of our flapjacks, granola and muesli by the addition of pure oats. The gluten, wheat and dairy free oats used in this product are high in fibre and have been carefully produced so that they are free from contamination by other gluten containing grains. Most coeliacs can tolerate oats, however you should add them to your diet slowly and consult with your Doctor or Dietitian before doing so, especially if you are newly diagnosed. Products which contain pure oats will display the pink roundel (see below) on packaging.

#### Using the list

Our Product Guidance Lists feature 2 sections. The first list shows all the products that have been added to the list this month. The second list shows all Sainsbury's own brand products (both existing and newly added to the list) that are suitable for people avoiding milk (including lactose) and gluten.

This list <u>does not</u> include products from the *In Store Bakery*, the *service deli*, the *hot food counters*, *fresh meat* and *fresh fish counters*, Sainsbury's *café* or the *self-service salad bar*. This is because we advise people with allergies to avoid all of the products sold in these areas due to the potential risk of cross contamination caused by the open food handling.

Within the list, the products are divided by categories e.g. Fresh Meal Solutions, Dairy, Biscuits etc.

These categories are then divided into sub-categories. So in **Fresh Meal Solutions** you will find Classic Meals, Inspired to Cook, Fresh Italian Meals, Fresh Indian Meals etc. Following each sub-category there is a four digit number in brackets, e.g. Fresh Italian Meals (0015). This is the department code that is unique to the sub-category, this code may help the Sainsbury's colleague in store find the product for you.

The *first column* of the list contains some numbers, used internally by Sainsbury's, called **SKUs.** Each product has a unique SKU number and this may help the Sainsbury's colleague in store or on the customer service desk help you identify the product you are looking for.

The second column contains the **barcode** that appears on pack.

The *third column* is the product description. This is the name of the product that appears on the front of pack and it also includes the weight of the product.

#### How to search for products or product types

Are you looking for a particular product but don't want to trawl through the list? If you are viewing this on a computer all you need to do is press Ctrl and the letter 'F' (For mac computers press the 'Command' button and the letter 'F'). A box will then appear in the top right hand corner where you can type the name of the product, or type of product you are looking for and then press search. The computer will automatically find it for you if the product is included in the list.

How to identify the exact product from the list, when you're doing your shopping:

How to search on the grocery shopping website

You can search for any of the products listed below on the grocery online shop – <a href="www.sainsburys.co.uk/groceries">www.sainsburys.co.uk/groceries</a> . Simply copy and paste the SKU number from the list into the search box, and click Go.

You can also search for a list of products at once, by using our shopping list tool. Click on 'find a list of products' at the top of the page, and enter the SKU numbers (separated by a comma), and Click find products.

#### Sainsbury's sub-brands and abbreviations used in the list:

**basics**. This is a wide range of staple products across food and GM, with Sainsbury's quality at the lowest price. Basics maintains our universal appeal and helps budget conscious shoppers lower the cost of their weekly shop. Customers should not have to compromise on their health or sourcing values - which is why basics foods are free from hydrogenated fats and artificial flavour enhancers, and are sourced with integrity

**Taste the difference** (abbreviated in the list to Ttd). This is Sainsbury's premium offering of food & drink, giving customers a wide range of high quality, fantastic tasting products. Our teams take time, care & attention to ensure we source the best ingredients & recipes from around the world, to deliver an outstanding taste experience.

be good to yourself (abbreviated in the list to bgty). This is Sainsbury's healthier option range where we have developed great tasting everyday essential products which are better for you because we have controlled the levels of fat, saturated fat, sugar and salt without compromising on taste. All products will either be less than 3% fat or reduced fat (containing at least 30% less fat than the standard equivalent product).

**My Goodness.** This is Sainsbury's 'naturally good' brand, targeted towards a customers looking for health through delicious, naturally good products. The products offer customers more of the nutrients and foods that we typically lack, such as fruit, vegetables, fibre, Omega 3, vitamins and minerals and controls what we eat too much of, being low in saturated fat, salt and sugar.

**freefrom.** Sainsbury's were the first major supermarket to introduce an own label free from range back in 2002. This range today now includes over 100 products that have all been specially made without wheat or gluten and most are also made without milk. Products are suitable for coeliacs and people with a wheat allergy. Most are also suitable for people with milk allergy or lactose intolerance.

All our products are developed in strictly controlled environments, ensuring we never compromise on safety, quality or taste.

**Sainsbury's SO Organic.** Food you can trust. This is Sainsbury's range of products where we have developed an organic alternative to most mainstream products. All organic farms and food companies are inspected at least once a year. The standards for organic food are laid down in European law, so a licence is required to grow process and market organic products. Farming practices aim to encourage wildlife and promote optimum soil health.

#### Common ingredients to avoid if you are avoiding gluten

This list isn't exhaustive and there may still be other sources of gluten you should avoid - always check the ingredients list and allergy advice box.

Flour (including wheat flour, rye flour, barley flour or oat flour)

Semolina

Durum wheat

Wheat bran

Oat bran

Wheat starch

Modified wheat starch

Bulgur wheat
Cous cous
Liquorice (cereal usually added to give liquorice root flexibility)
Wheat rusk
Barley groats
Blocked barley
Pot barley
Pearl barley
Husked barley
Beer & lager
Porridge oats
Oatmeal
Soy sauces
Einkorn – type of wheat
Emmer – type of wheat
Rye

#### If you have coeliac disease, the following ingredients are safe for you:

There are certain ingredients which are made from gluten-containing cereal but the grain has been processed in such a way that all the gluten has been removed. The European Commission has worked with the European Food Safety Authority (EFSA) to confirm that these ingredients are safe for people with coeliac disease.

- glucose syrups derived from wheat or barley including dextrose
- wheat-based maltodextrins
- · distilled ingredients made from cereals that contain gluten. I.e. alcoholic spirits such as whiskey

### Common ingredients to avoid if you have a milk allergy

This list isn't exhaustive and there may still be other sources of milk you should avoid - always check the ingredients list and allergy advice box.

Cows' milk

Spelt

Goats' milk

Sheeps' milk

Buffalo milk
Skimmed milk powder
Non-fat milk solids
Milk protein
Milk solids
Casein
Caseinate
Sodium caseinate
Hydrolysed casein
Lactose
Cream
Ice-cream
Butter
Butter oil
Cheese
Cream cheese
Whey
Hydrolysed whey
Whey powder
Whey syrup sweetener
Ghee (unless it is made purely from vegetable oil)
Buttermilk
Crème fraiche
Fromage frais
Yogurt
Curd
Quark
Lactoalbumin
Lactoglobulin

Lactic acid (E270)

Other mammalian milks, such as goats', sheeps' and buffalo milk are not recommended as the proteins are very similar to cows' milk proteins and likely to cause an allergic reaction.

#### Nutritional information for people avoiding gluten and milk

You can get all the nutrients you need from a gluten free diet as long as you swap staple foods made from wheat and other gluten-containing grains, for wholegrains and nutritious starchy carbohydrates. This includes rice, corn (maize), polenta (cornmeal), buckwheat, millet, quinoa, potato, sweet potato, fortified breakfast cereals (i.e. cornflakes and rice crispies). Gluten -free bread, rice, potatoes, gluten-free pasta and other starchy foods should be included at each meal and provide the bulk of your calories each day.

It can often be hard finding alternative sources of fibre to whole-wheat on a gluten free diet, so here are some tips to increasing your fibre intake: you should try to include foods in your diet that are high in fibre such as brown rice, wild rice, beans and lentils, and more fruit and vegetables. If you have been diagnosed with coeliac disease or IBS, check with your GP or dietitian before increasing your fibre intake.

Excluding milk from the diet can potentially lead to inadequate intake of certain nutrients including some B vitamins and especially calcium. Alternative sources of calcium include canned fish such as sardines and salmon where the bones are eaten, fortified soya drinks and soya products, fortified cereals and bread, dark green leafy vegetables and pulses. Calcium from some of these sources (eg pulses and cereals) is less well absorbed than from milk and dairy so you may need to take in larger amounts.

#### **Sources of further information**

If you have any queries about this list or the products contained in it please contact Sainsbury's **Careline 0800 636 262.** 

If you would like more information about allergies and intolerances Sainsbury's would recommend either of the charities below:

**Coeliac UK** is the leading charity working for people with coeliac disease and dermatitis herpetiformis. Their mission is to improve the lives of people with coeliac disease through support, campaigning and research. They will be able to provide you with expert and independent information to help you manage your health and diet.

3rd Floor Apollo Centre Desborough Road High Wycombe Bucks HP11 2QW

Switchboard: 01494 437278 Helpline: 0845 305 2060

Internet: www.coeliac.org.uk

**The Anaphylaxis Campaign** is a national charity launched in 1994 to raise awareness of severe allergies, particularly food allergy. The Campaign maintains a regular dialogue with the UK food industry, prominent medical figures and the Food Standards Agency. Newsletters, fact sheets and product alert bulletins are sent to the Campaign's 8,000 members, the majority being the parents of children with severe allergy. There is a telephone helpline and a website.
